

Struik Defends His Position In Open Debate At Harvard

The whole issue of academic freedom was met head on Wednesday night when the investigation of universities was argued in an open debate sponsored by the Harvard-Radcliffe Graduate Council.

Speakers at the meeting were: Dr. Dirk J. Struik, suspended Institute professor, who is awaiting trial for alleged subversive activities, Mr. Thomas Dorgan, clerk, Superior Court of Massachusetts; Kenneth D. Robertson (Harvard '29) a Boston business executive, and Allard K. Lowenstein, a student in the Yale Law School.

Professor Struik, told the large audience gathered at the New Lecture Hall at Harvard that the committees claim to ferret out communists. He felt, however, that they "constitute an attack on the principle of education itself . . . The sole crime of the so-called Communists is that they are dissenters." He went on to say that Harvard should be proud to have had Communists on its campus in 1938 because at that time they were the strongest force opposing Hitlerism, and heeding their advice might have prevented World War II.

The professor continued by stating that "they (the dissenters) are for peace, for support of the Constitution, for the abolition of the exploitation of man by man." The dissenters, he said, believed in the light of free inquiry while the investigators believed in the darkness of unreason.

Thomas Dorgan, Clerk of Superior Civil Court of Massachusetts, quoted laws to show that the government has the right and the duty to conduct investigations. Calling Communism a "con game," Mr. Dorgan said that the universities have freedom within the law and are responsible to the law. He quoted the statutes of the Commonwealth, Chapter 71, which State

that "all the preceptors (teachers) especially of the University of Cambridge (Harvard) shall teach chastity, obedience and love of country." A later court ruling stated that this law shall apply off campus as well as in the classroom.

Mr. Dorgan referred to the Harvard Corporation as a "communist front organization." He expressed the belief that President Conant had left Harvard in the nick of time just as the investigation was beginning. Mr. Dorgan further stated that he would ban all the works of Marx from college libraries.

Mr. Robertson stated his conviction that Struik himself was a good enough reason for the investigation. He said that when the Communists found tough going they posed as socialists.

Allard Lowenstein, a student in the Yale Law School, and past president of the National Student Association, expressed his viewpoint as a student. Mr. Lowenstein admitted that "the Communists should be feared, but

(Continued on Page 4)

Baker House Dance Features Magician In Dorm Weekend

A formal and an informal dance have been chosen to round out the Dorm week end festivities, the Dorm Social Committee announced today. Dorm Weekend takes place from April 10-11 and is one of the highlights of the spring social season.

The formal, which will be held from 9-11 at Baker House, on Friday evening, April 10, will feature Baron Hugo and his orchestra and entertainment by Fu Ling, a well known magician. On the succeeding evening, from 8 to midnight, the informal dance will be held at Walker Memorial. Music for ballroom and square dancing will be provided by Mike Stevens and his orchestra.

Tickets for the formal are \$2.25 per couple, and \$1.80 per couple for the informal dance. A combined ticket for the two affairs is also offered for \$3.75.

Arrangements are also being made for hotel reservations for out-of-town dates. Anyone interested should contact Dave Kaplan (Baker 306) or Walt Kroy (Hayden 112) as soon as possible so that satisfactory arrangements can be made.

Dean L. Jacoby New Senior President Schreiber, Johnson, Stevenson Elected New Officers Take Over In Inscomm

Old Inscomm Holds Concluding Session

On Wednesday, Marion C. Manderston '53, president of the 1952-53 Institute Committee, called the last session of that body to order. Shortly thereafter, that committee adjourned, and as prescribed by the Undergraduate Constitution, the 1953-54 Institute Committee, with President Dean Jacoby presiding, began its first meeting.

The old committee attended to several very important matters before its adjournment. Foremost on the agenda was the election of a new chairman for the Judicial Committee. This position is considered to be important since the committee is the final judge, so far as the student government is concerned, of violations of the laws of the undergraduate community. Four men were nominated. Their candidacies were debated at length by the committee. A written ballot was taken, using the preferential voting system, and Thomas Henderson '54 past president of the Combined Professional Societies was elected.

In his final report to the Institute Committee, Henderson stated that the Combined Professional Societies has been dissolved. He noted that the members had decided to liquidate the organization when they realized that it had accomplished nothing in the past year, and was simply marking time. The Institute Committee was in general agreement with this decision.

Change in Activity Rooms

Paul Sheppard '53, retiring head of the Secretariat, announced his plan for the redistribution of room space for the various activities now housed in Walker Memorial and Building 18.

He said that there are too many activities and too little space available for them at present. Some people seem to feel that the present space is inadequate and is not being utilized to the fullest extent possible.

A redistribution of space would help to alleviate the situation. There was considerable opposition from the floor to the proposal, mainly because

(Continued on Page 2)

Race For Senior Class President Determined By Last Minute Votes

In a tight race for the Class of 1954 Senior Class President, Dean L. Jacoby, member of Beta Theta Pi, gained the needed majority vote of his class and has already assumed the duties as Senior Class President. Michael B. Boylan, member of Delta Kappa Epsilon, won second place vote for the coming 1954 Class Presidency and automatically received the office of Vice President. Jacoby ran on a one-purpose platform, that Institute Committee should definitely be reorganized such that, among other changes, its membership shall include only students who are directly responsible to some segment of the student body.

U.N. Speech Given By Mrs. Roosevelt

By William J. Neff '55

"Military and economic aid is not enough to keep the world from Communism," Mrs. Eleanor Roosevelt told college students at Wellesley College last week.

Speaking at a conference sponsored by the National Student Association, on UNESCO and its fundamental education project, Mrs. Roosevelt said that the only way in which we could convince the world that our way of life is better than that which the Communist system promises is to set a good example of constantly democratic actions.

In her discussion of "Fundamental Education and Human Rights" Mrs. Roosevelt told about her recent trip to India. "Many people in the world," she said "are not interested in the Four Freedoms nearly as much as they are in the freedom to eat, and to have an opportunity for education."

The UNESCO fundamental education project is concerned with the teaching of simple methods of agriculture, sanitation, home-making, and democratic living to people whose lives are still on a primitive level.

Sing And Dance Set For Next Saturday; 13 Entries Received

Professor Theodore Wood, Jr., will be Master of Ceremonies at the annual All-Tech Sing and Dance on March 14, to be held in Morss Hall, Walker Memorial. The contest will feature as judges Professor John B. Wilbur, Professor Leicester F. Hamilton and Professor Avery A. Ashdown.

Thirteen entries have already been received, making this the largest Sing and Dance in recent years. The groups entered are Burton Student Staff, East Campus (2 groups), Phi Gamma Delta, Walker Student staff, Sigma Nu, East Campus Student Staff, Women's Dorm, Sigma Alpha Epsilon, Alpha Tau Omega, Theta Chi and Delta Tau Delta. The entry from the Women's Dorm will give the student body a chance to see some of the Co-ed talent.

Tickets for the program have been on sale in the lobby of Building 10 since Monday, March 2 at 60 cents per person for the Sing only, and \$1.70 a couple for the Sing and Dance. A special price of \$1.50 will apply to purchasers of blocks of ten tickets.

As in the past years a trophy will be awarded for first place, with certificates for second and third places. EGBERT will be awarded for the best presentation. The nature of EGBERT will not be revealed until the award is made.

The referendum passed by an overwhelming four to one majority. This decision of the student body coupled with the election of Jacoby shows that the students favor the proposed changes in the undergraduate government of the Institute. As a result of the vote on referendum the entire student body will elect a president of the student body during elections at this time next year. The senior class president from then on will be only a class officer.

Other Class Presidents

Harry Schreiber, member of Sigma Nu, is now President of the Class of 1955. Robert Morgan, of Phi Gamma Delta, was Schreiber's closest com-

(Continued on Page 3)

Frosh Semi-Formal In Morss Hall Has City Cafe As Theme

City cafe will be the theme of "The '56," the Freshman semi-formal dance to be held tomorrow, Saturday, March 7, from 8 to 12 p. m. in Morss Hall, Walker Memorial.

The Frosh will dance to the rhythm of George Graham and his 10-piece orchestra. A special feature of the evening will be Miss Massachusetts of 1952, the charming Barbara Graves.

The affair is the first of the term to be sponsored by the Freshman Dance Committee. It is expected by its sponsors to be one of the outstanding social events of the Freshman season.

Members of the Freshman Council conceived the motif, and followed through by going all out on the artwork and decorations for the dance.

Tickets for the dance, which is for couples only, may be obtained at "The '56" booth in the lobby of building 10.

The F. D. C. expects a fine turnout. Dave Kaplan, chairman of the committee, feels the dance should provide a pleasant evening, commenting, "The element which makes a dance is not the superficial surrounding of the hall, but the couples attending it."

Westgate Laundry Continues Low Rate

Since the advent of the new laundry, many people have been in doubt as to whether or not the Westgate machines are still available for student use, and why the cost of laundering at Barbour Field House is 25 cents compared with 10 cents at Westgate.

T. C. A. informs us that the Westgate facilities are still open to all students. The difference in prices at the two locations is due to the fact that Westgate runs at a loss and is subsidized by T. C. A. However, T.C.A. was unable to establish a new laundry because of the prohibitive expense, and the new concession is being run unsubsidized by the Maytag-Gray Corporation.

Student March Will Highlight Red Cross Boston Fund Drive

Over 1000 students from Greater Boston colleges are expected to invade Boston's 22 wards Monday, March 16 in an intensive one evening drive to find Block Fund Raisers.

Student's March is a unique effort to expand the number of fund raisers for Red Cross, conceived of by the heads of Student Councils of Greater Boston colleges.

The March 16th drive is part of the Red Cross's attempt to meet a record goal in order to further the development of Gamma Globulin, the latest and most promising discovery in the fight against Infantile Paralysis. This procurement of this new serum to meet the demands of this year's Polio season is added to the important work the Red Cross does every day on the battlefronts.

Students' March will begin by assembling at the John Hancock Hall at 5:45 p. m. on Monday, March 16, where the students will receive brief instructions on the functions and finances of the Red Cross and on the objectives for the evening. From here they will be transported in teams by bus, cab, and MTA to areas in Boston where they divide into pairs of a boy and girl each and set out to find competent local Fund Raisers.

Red Cross spokesmen emphasized that students will not be called upon to solicit, but to find future solicitors. Thus the 1000 students will multiply to 10,000 solicitors the following day.

The one night campaign will be a highlight of the Red Cross Drive and will be preceded by intensive newspaper, radio, and TV publicity, both in the city and on the campuses.

See future issues of THE TECH for information on where and how to sign up for the drive.

Tech Swimmers Bow To Tufts 44-40 In Alumni Pool Meet

The Tech swimmers lost to Tufts, 44-40, Wednesday night in the Alumni pool. The individual races in the Tufts meet were all close, some being decided by a matter of inches. This reversal came on the heels of Tech's easy victory over R.P.I. last Saturday. The splashers now look forward to the New England Intercollegiate Championship Meet to be held March 13 and 14, in the M.I.T. Alumni pool.

R.P.I.

The swimmers coasted to an easy victory in the R.P.I. meet. The times for the individual races were not impressive, probably owing to the fact that the Tech tankmen were not pressed by the R.P.I. swimmers. Howard Munro '53, led Tech with 8 points, placing first in the medley and second in the breaststroke. Vinay Ambe-gaoker '55, and Frank Buck '55 were on the winning 300 medley relay team and also took individual firsts in the backstroke and breaststroke, respectively.

TUFTS

The Tufts meet was a heartbreaker. The Tufts team was admittedly good and extended Tech swimmers to the

fullest in the events. The Individual medley and medley relay, real showstoppers right down to the wire and Tech's Buck lost the breaststroke by a touch. As a side light, Connolly of Tufts was disqualified for using an illegal breaststroke.

Tech is host to the Coast Guard

(Continued on Page 3)

Bell Aircraft Corp. Offers Summer Work

Bell Aircraft Corporation is again offering a summer training program to all interested undergraduate engineering students who can qualify. The program includes on-the-job training in one of their laboratories and a series of fourteen lectures which will cover such topics as dynamics, servo-mechanisms, rocket propulsion systems, aerodynamics, structures and management.

The course, which lasts eight weeks, is offered during July and August. Students last summer also had the opportunity of discussing specific engineering problems with key personnel.

A DEATH UNMOURNED

When the chairman of the Combined Professional Societies officially announced, last Wednesday, the dissolution of that organization, he took a step which is perhaps long overdue. The decision was very likely a difficult one to make. This may well be understood. For the will to live and perpetuate is often as strong in an organization as it is in human beings. However, when an activity ceases to serve any purpose it is useless to expend energy to maintain it. This was the case with Combined Professional Societies. The twenty-four members who decided in favor of dissolving their group (two were opposed) are to be congratulated for being able to recognize a hopeless situation.

Within the past two years the C.P.S. has undertaken only one project which it has found itself capable of completing, and which no other activity had already undertaken; this is the faculty evaluation poll. The idea is a good one but the responsibility for conducting the poll has since been accepted by the Student Faculty Committee. This leaves C.P.S. a virtually defunct organization with no activities it can perform within its means.

This situation has been the cause of much consternation at other college campuses where numerous activities are performing absolutely no function or where there is unwarranted competition between organizations essentially performing the same services and designed to serve the same ends. This has led to serious questioning of the value of the extra-curricular program. We therefore applaud the Combined Professional Societies for having raised themselves above the level of emotions in deciding to bring their group to an unfortunate but necessary end.

WHERE CREDIT IS DUE

At six o'clock last Wednesday, when the outgoing president of Institute Committee brought down his gavel to adjourn, he officially brought to a close the 1952-53 Institute Committee. Before we close the record books of that body, however, we might perhaps take note of, and give recognition to several of its members; students who by their abilities as leaders and thinkers have shown themselves to be above the mediocrity of the group as a whole. We take this opportunity to commend four of those men.

As president of Institute Committee, Marion Manderson '53 exhibited the impartiality required for the proper functioning of his office. He has performed his job as president of Institute Committee capably and commendably and has shown a greater interest in student government than his position requires. The vote of thanks he received from the outgoing Institute Committee was well deserved. We must admit that we did not expect this to be the case when we were informed of his election one year ago.

While we judge a president on the basis of his neutrality we must evaluate the remaining representatives by the thoughts they express and the proposals they support. Notable among the members of Institute Committee are Bennett Sack '53, Thomas Henderson '54, and Sidney Hess '53. We praise them for their seriousness and sincerity and for their mature outlook on the affairs of student government.

Tom Henderson is to be especially commended for his contribution to the Discriminatory Clause Investigating Committee, of which he was chairman. We commend too, Sid Hess for adequately representing the views and opinions of the Interfraternity Council in regard to the motion on discriminatory clauses. We do not agree with those opinions and we were sometimes led to believe that neither does Sid Hess. There were times too, when we questioned the notions of Ben Sack, for we felt that he (as well as some of his colleagues) placed little faith in the abilities of the "neophyte" in student government. We were often forced to reach the conclusion that too little attention was being paid to the "weaker voices" in Institute Committee, and that responsibilities were kept from them. Perhaps he was unconscious of this attitude and was sincere in his belief that ability lies only with the older "senior" members of government. We cannot agree.

Nevertheless, if the general attitude of these men is carried further by the new Institute Committee we may well attain the goals we seek in establishing an efficient and responsible student government.

through the mail

To the Editor of THE TECH:

There exists at present an annoying situation with respect to Freshman R.O.T.C. The officers in charge of drill have consistently prolonged the drill periods and dismissed them late. No one denies their right to determine how drill is to be conducted, but I do not think that it is within their right to force students to submit to more than the fifty required minutes. I hope that some member of the R.O.T.C. staff will please heed.

Name withheld on request.

March 4, 1953.

All letters to the Editor must contain the author's name which will be withheld upon request.

NEACC Sponsors Writing Competition

Student writing contests, a poetry contest, and a short story contest with monetary prizes to be awarded to winners, are being sponsored by the 1953 New England All-College Conference.

The conference, sponsored by the National Student Association and a number of New England colleges (including the Institute), will employ the services of five prominent critics and writers to judge the contests.

All entries should be sent to Miss Jane Curran, Newton College, Newton, Massachusetts, before April 1 of this year.

Inscomm Meeting

(Continued from Page 1)

the activities concerned did not seem to be very well informed about the proposed changes. The proposal was tabled for further study by the Secretariat, and debate may be resumed later this year.

A vote of thanks was given to retiring president Manderson, who made a short speech before final adjournment. He said that he hoped the new Institute Committee would assume its responsibilities with an eye towards constructive improvements of the Institute Community, and not with the critical type of attitude that creates nothing worthwhile. The meeting was then adjourned.

New Committee Meets

Almost at once, the members of the new committee gathered together for their first meeting with Jacoby presiding. According to the Undergraduate Constitution, the first meeting of a new Institute Committee may concern itself only with election of its various officers. The following officers were elected: Michael B. Boylan '54, Vice President of the Institute Committee; Charles Masison '54, and F. Lawrence Holmes '54, members-at-large of the Executive Committee of Institute Committee; David Vogel '54, Secretary of the Judicial Committee on a white ballot; and Robert Jones '54, member-at-large of the Finance Board.

The meeting was adjourned with the announcement by Jacoby that there will be a dinner party for the old and new Institute Committees at the home of Dean Bowditch on March 11. The next meeting of the Committee will be on March 8, at 5:00 p. m. in the Litchfield Lounge of Walker Memorial.

AFTER HOURS

By Constantin Costen '55

This coming weekend promises to provide plenty of entertainment, varied enough to suit anyone's taste and pocketbook.

MOVIES

Astor: Samuel Goldwyn's musical "Hans Christian Andersen" is now running into its third month for any of you who haven't seen it.

RKO Keith's Memorial: Walt Disney's "Peter Pan" is being held over. It's being hailed as Disney's masterpiece. Full of light-hearted fun, it should provide entertainment in a different style.

Paramount & Fenway: "The I Don't Care Girl" is the "come and get it" type of musical portraying the Broadway career of Eva Tanguay during the roaring twenties. Any jazz or Charleston fans will like this lively musical, featuring Mitzi Gaynor and Oscar Levant.

Leew's Orpheum: "Moulin Rouge", the Technicolor story of painter Toulouse-Lautrec is holding over another week. Jose Ferrer's performance is excellent; also features Zsa Zsa Gabor (no comments required here).

Exeter: The prize winning French film "Forbidden Games" is in its second week along with M.I.T. in "Men of Science."

THEATER

Wilbur: Audrey Hepburn's comedy with the French touch, "Gigi" is completing its Boston run this week. Tickets are undoubtedly scarce, but there's no harm in trying.

Colonial: Jose Ferrer's production of "Salag 17" is opening a limited engagement. The original Broadway cast is doing an excellent job with this comedy dealing with American prisoners of war in Germany.

DANCES

MIT's Class of 1956 is presenting its dance tomorrow night in Walker Memorial from 8:00 to 12:00 a.m. George Grahman's orchestra will provide the music and decorations promise to be unusual. Spiked and unspiked punch will be available to quench your thirst, while candle-light will lend a romantic atmosphere.

NIGHT CLUBS

Vaughn Monroe is once again making an appearance at the Totem Pole. Although the price is low, a large turnout will make things rather crowded.

Baker Resident Is Linguist Professor

New faculty resident for Baker House is the astute Professor William N. Locke of the Modern Languages Department. Besides a warm, winning smile, Professor Locke is the possessor of an insight into social problems that well qualifies him for his job.

When asked about his duties as faculty resident, Professor Locke smiled, "Well, I'm glad it doesn't involve any administrative work." He sets as the main purpose of his position counselling of the 350 residents of Baker House. "I believe that a boy, especially when he is away from home, needs to have someone to come to with his problems." The professor plans to have informal get-togethers every Wednesday night after dinner with Baker House men who just want to talk.

Professor Locke has many interesting tales to tell about his experiences in Europe during the Second World War, when he was a civilian technician with the Office of War Information. His job, explained Dr. Locke, involved

Maybe the low man on that Totem Pole Started at the Bottom

Once there was a Senior who was Engaged. Very happily. One day, however, he realized that while Being Engaged, before graduation, was one thing, Being Engaged (A.D.) (after diploma) involved such complications as Getting Married and Supporting Dependents. In a word, Work. So he began sending job letters to Personnel Directors of Large Corporations, outlining his qualifications. Some answered, sending him Application Forms to fill out. Some didn't. Eventually he wound up with a grim Common Denominator: they would let him know if Anything Came up.

Disenchanted but Willing, he outlined the problem to his Betrothed, a girl of Superior Intelligence. She regarded him sternly. "No wonder," she said, "letters, yet! Listen!" and she unfurled a Stratagem.

First thing next morning, he jetted down to the Western Union office, in one hand a list of the 10 companies he'd most like to work for, and in the other a compelling message making clear that here was The Man, awaiting only the opportunity to Prove It. Sent it as a Telegram to all 10 companies.

Results? Within a week he had 6 Interviews, 4 Job Offers. Today, when he brags about being a Self-Made Man, his wife just Smiles Indulgently.

When you're jockeying for a job, use Telegrams to Get the Jump on the Competition. Telegrams get in, get Read, get the Reaction you want. Wonder-workers in other ventures, too... whether you're Dickering for a Date, a Hotel Reservation, or Pesos from Pop. Just call Western Union.

representatives will be here for
 Personal Interviews on

There are many openings for engineers in American industry today. But we honestly believe that there are few which offer benefits equal to those at Hamilton Standard:

- ① Good starting salary with excellent chance for advancement based on ability.
- ② Opportunity to use your complete education on a wide variety of problems. Not just one product but many. In addition to our world-famous propellers, we are successfully marketing a growing line of jet aircraft equipment, such as engine starters, fuel control systems, cockpit refrigeration units and hydraulic pumps. Many other designs are still in the early stages of development.
- ③ Association with an exceptionally high calibre engineering staff, which has a record of steady growth throughout our 33 year history.
- ④ Ideal location midway between Hartford, Conn., and Springfield, Mass., the center of an area known for its cultural and recreational advantages.
- ⑤ New plant, with modern air-conditioned offices, in attractive country setting. Group insurance and many other employee benefits.

Our representative will be glad to answer your questions and tell you more about the opportunities in our growing organization.

HAMILTON STANDARD

Division of United Aircraft Corp.
 WINDSOR LOCKS, CONNECTICUT

Track Team Aims For 2nd Straight Victory Saturday

The track team is out for its second straight victory of the current indoor track season. Coaches Hedlund and Arneson are confident that their charges will put up a good showing on Saturday because they have gained valuable experience from their triumph over Northeastern in the season's opener. New Hampshire will probably furnish the toughest opposition of the season; a victory will insure a perfect indoor record. The Beavers can gain this victory if the good performances of last Saturday are duplicated along with the general improvement in running that is expected from the rest of the squad.

The most closely contested race will be the 50-yard dash which will feature Tech's sophomore flash Henry-Olivier against New Hampshire's Bernard Campbell who is entered in three events. This race is a toss up. Tech will be sure of victories with Warren Lattof in the high hurdles, Bill Antoine in the high jump, and George Grenier in the 600-yard run. Bob O'Donnell and Harry Schreiber may lower the Tech record in the 1000-yard run. O'Donnell will receive a tough battle from Schreiber if he hopes to avenge his defeat of last week at the hands of his teammate. Capable Jack Farquhar and Hugh

Nutley should finish one-two in the mile despite the efforts of Alan Carlson of New Hampshire to break up this pair. Tech should score heavily in the 300-yard dash because the opposition will be tired from their multiple running assignments. The fact that Tech does not overtax its runners in this fashion is a tribute to the over-all balance of the squad.

In the field events the picture will be reversed. The New Hampshire weightmen led by team Captain Richard Fittsin in the 35-lb. weight and Ron Guittar in the shot put should score heavily. In the pole vault, there is hope that Shapiro may take the gold medal if the New Hampshire pair of Hogan and Ludwig are not in the best of form. The broad jump, the last event on the program, is anybody's guess. This event is important because the meet winner in all probability will be decided by it.

The field event future will not be so dark as the one outlined above when this year's crop of freshmen move up to the varsity next year. John Morefield has been outstanding with prodigious throws. In the broad jump, Mozzicato is heads above the field, outclassing his rivals by feet not inches. With many more promising freshmen on the roster, the future potential of Tech's track team is excellent. However, these boys need encouragement which they receive through good attendance at these meets. So, come to Briggs Field on Saturday at 2:00 p. m. and cheer the track team on to victory.

W.M.I.T. Presents Candidate's Forum

Candidates for class presidential offices explained their platform and answered direct questions phoned in by listeners during a two and a quarter hour election forum on WMIT. During the broadcast on Monday evening, March 2, the moderator, WMIT news director Eldon Reiley '55, had time to ask over the air only 26 of the many questions submitted by telephone.

After the broadcast Reiley stated, "The response to the election forum has been so tremendous that we (WMIT) hope to present similar programs during the year as controversial issues arise."

Speakers on the program were Dean Jacoby '54, Michael Boylan '54, Harry Schreiber '55, Robert Morgan '55, David Rados '55, Edward Johnson '56, William Layson '56, Garry Quinn '56, Ritner Walling '56, and David Braslau '56.

Professor Locke

(Continued from Page 2) the preparation of leaflets and other propaganda material to be dispensed to the enemy soldiers in an effort to make them surrender. He remarked that many a town in Germany and France was taken by shells dispensing leaflets instead of death.

After the war, in 1945, Professor Locke, a graduate of Exeter, Bowdoin, and finally Harvard Graduate School, came to M. I. T. and entered the Department of Modern Languages. Besides being a French scholar, he converses in German, Dutch, and Spanish — or at least, that's all he would admit to. The Baker House men have a valuable counsellor and a sincere friend in Professor Locke.

Swimming

(Continued from Page 1) Academy, Saturday, March 7, in the home tank. The mermen will be trying to improve their record and close the season on a winning note in their final dual meet.

200 Breaststroke: Won by Buck (MIT); 2. Munro (MIT); 3. Gries (RPI). 2:45.8.
400 Freestyle: Won by Alkoff (RPI); 2. Irwin (RPI); 3. Cohen (MIT). 5:42.8.
400 Freestyle Relay: Won by MIT. (Daniel, Bailey, Hamilton, Perkins). 3:51.3.

Election Results

(Continued from Page 1) petitor and has assumed the vice presidency.

Edward D. Johnson won a majority with William Layson following the closest of all candidates in the election for President of Class of 1956.

In the elections of the 1953 graduating class George D. Stevenson won permanent president; Vinson W. Bronson, Jr., won permanent secretary-treasurer; and Mark B. Schupack, John R. O'Donnell, and George Fuld were elected marshals.

Further Class Officers
Roy Riedinger, Jr., is secretary treasurer and F. Lawrence Holmes and George Perry, Institute Committee Representatives for the senior year of the Class of 1954.

Junior year secretary treasurer for Class of 1955 is W. Chandler Stevens. Institute Committee Representatives are Reginald W. Griffith and David Brooks.

The Class of 1956 elected for their sophomore secretary treasurer, James Dow, and for Institute Committee Representatives, Oliver Johns and Eugene Mathot.

Officers Of Activities
Recently elected Class A activity officers that have not been announced previously in THE TECH are given below along with the section leaders of the freshman class for the spring term.

William J. Eccles, '54 has been elected chairman of the Athletic Association. President of the Association of Women Students is Marilyn Leader '54. Other officers include Anna Bailey, '54, Dell Lanier '55, and Ella Paton '55. John Pierce '54 has been elected president of the Five-Fifteen Club. Richard Cushing '55, Robert Greene '55, Stanley Becker '55,

Anthony Praznik '56, and Orlando Cucehiara '55 are the other officers.

Chairman of the Freshman Coordinating Committee is Michael B. Boylan '54. Elected officers of the Lecture Series Committee include Henry Myers '54, chairman; Sidney Reichmann '55, Jack Overly '54, Jack Williams '55, and Donald Moore '55. General manager of Musical Clubs is Jack W. Smith '55. John Rieman '54 is commodore of the Nautical Association. Other officers are Horacio Garcia '54, Alain de Bero, '55, and Daniel Farkas '54. For N. S. A. chairman Robert Baker '55 has been elected. Wilbur Fiske '54 is chairman of Public Relations Committee. In the Secretariat Coleman Bresse '54 is now chairman. The other officers are W. Chandler Stevens '55, Harry Schreiber '55, Roy Salzman '55, and Robert Morgan '55.

Robert Anslow '54 is chairman of the Finance Committee. WMIT is now headed by Victor Ellins '54, station manager; David Barnes '54, John Erickson '55, Arthur Evans '54, and John Lindenlaub '54. Student Faculty Committee chairman is Jerome D. Wayne '54. Tech Show will be run by

Blair Behringer '55, general manager; Thomas Doherty '56, production manager; and Robert Elvidge '55, business manager. General manager, managing editor, and business manager of Tech Engineering News are now respectively Peter Embree '55, Herbert Jacobson '54, and Raymond D'Arcy '54.

New Section Leaders
Section leaders of the freshman class for the second term in the order of increasing section numbers are: John Watts, Paul Berenson, Martin Timan, Jon Hathaway, James Davis, Edward Johnson, Pelo Anastasiadis, Nathan Hazen, Robert Porter, Michael Turin, Warren Briggs, George W. Luhrmann, Garry L. Quinn, Henry Kleinman, Curtis Flory, David Mitchell, Bernard Haas, Robert Carlson, Thomas Reinhart, John Saloma, David Solow, William Calvert, Ronald Hillebrand, George Mayer, Robert Sawyer, William Layson, Robert Borghesani, Nelo Sekler, John Hartigan, Julio Arroyo, Robert Pollard, Donald Weiner, and Richard Quinn.

ALL ARE WELCOME

A Southern belle once said to me,
"I'd like to tell you—all
That I smoke Luckies 'cause they're free
And easy on the drawl!"

Richard H. Levine
University of Vermont

Nothing-no, nothing-beats better taste
and **LUCKIES**
TASTE BETTER!
Cleaner, Fresher, Smoother!

Ask yourself this question: **Why do I smoke?**
You know, yourself, you smoke for enjoyment.
And you get enjoyment only from the **taste** of a cigarette.

Luckies taste better—cleaner, fresher, smoother!
Why? Luckies are made better to taste better. And, what's more, Luckies are made of fine tobacco.
L.S./M.F.T.—Lucky Strike Means Fine Tobacco.

So, for the thing you want most in a cigarette ...
for better taste—for the cleaner, fresher, smoother taste of Lucky Strike ...

Be Happy-GO LUCKY!

I went to see the Registrar—
He sent me to the Dean.
The Dean said "Son, smoke Lucky Strike—
They're smooth! They're fresh! They're clean!"

William A. Spiegler
Northwestern University

In spelling class we get high grades
Because we plainly see
That better-tasting cigarettes
Spell L.S./M.F.T.

Margaret Johnson
Duquesne University

Where's your jingle?
It's easier than you think to make \$25 by writing a Lucky Strike jingle like those you see in this ad. Yes, we need jingles—and we pay \$25 for every one we use! So send as many as you like to: Happy-Go-Lucky, P. O. Box 67, New York 46, N. Y.

Beaver Marksmen Show Class Against Strong Coast Guard Team

In preparation for the National Intercollegiate Championships, the M. I. T. varsity and freshman rifle teams journeyed to the Coast Guard Academy last Saturday for a practice match against what is probably the toughest team in the New England area. Tech's varsity quintet came through in fine shape to defeat all three of the five-man teams Coast Guard put in the informal competition. Because the Coast Guard allows their first year students to enter varsity competition, there was no formal freshman team for our frosh to compete against. However, the Tech frosh came within four points of bettering a Coast Guard team of two first year men and three upperclassmen.

Philip S. Rane '54, was first man on the line for the Tech varsity and he

set the pace for the contest by firing a fine score of 286. This is his highest score of the year to date, and turned out to be high for the entire field of match competitors. Everett H. Schwartzman '54 and Richard A. Oman '55 followed up as number two and three man respectively, and each contributed a 283 to the team score. Captain Richard D. Tooley '54 and Duncan MacPherson '55, fired fourth and fifth in the anchor positions, and under the increasingly tense match pressure, they performed well but did not quite shoot up to their season averages. They turned in a 278 and 279 respectively. The team total was 1409, which was a comfortable 13 points ahead of the Coast Guard's 1396.

(Continued on Page 5)

Engineers Host To N. England Teams In Swimming Meet

The New England Intercollegiate Swimming Association's 34th Annual Championship Meet will be held at M. I. T.'s Alumni Pool Friday and Saturday, March 13 and 14. Trials will be held Friday afternoon and evening with the championship finals on Saturday afternoon.

Teams entering the N. E. I. S. A. include Amherst, Boston University, Brown, M. I. T., Wesleyan, Williams, Springfield, Holy Cross, Worcester Tech, Bowdoin, Univ. of Massachusetts, Univ. of Connecticut, Trinity and Tufts.

On the basis of season performance, Williams will be established a favorite to retain its crown. Bowdoin, however, finishing second in last year's title event has fine wins this season over N. E. I. S. A. opponents and three veteran event champions entered.

Two M.I.T. graduates are interested in buying from or forming a partnership with any M.I.T. man with a marketable idea as to product, process, or service. Contact David Chaffin, Raritan Arsenal, Metuchen, New Jersey.

O'Donnell Leads Engineers In Excellent Track Season

When asked what he liked the most about track, John R. O'Donnell '53, captain of Oscar Hedlund's 1953 track squad, gave a simple answer. It seems that he enjoys having an interest which completely removes him from the academic side of M. I. T. "But more important," claims O'D, "is the chance to share a common interest with such a swell and congenial bunch of guys."

The track team apparently returns Bob's feelings, for he was elected captain of the track team last spring by an overwhelming majority. For no matter who is running a race, or going through a workout, Bob always has a word of encouragement. It is things like this that make a great sport greater.

O'D or "Odious" as he is sometimes known, calls Lakewood, Ohio, home. His Boston home is Theta Delta Chi fraternity. When he graduates this June, he will receive his degree in Mechanical Engineering.

Bob has been running track for five years. His first season was in his senior year in high school. Since then he has worked every season. He is now one of Oscar Hedlund's best middle distance men. His pet race is the half mile, but he occasionally will run a 440 on the mile relay team. It was as a member of the mile relay that O'D got his biggest thrill in track. The Technology mile relay had not fared too well during the earlier part of the 1952 season. The boys then really hit the boards at the N. Y. A.

C. meet and walked off with a first in the intercollegiate mile relay.

This year he ran fourth on the cross country squad, was a member of the two-mile relay and is running the 1000 in the indoor meets. However, his biggest responsibility is to captain the track team to a victorious season. As evidenced by last Saturday's meet, his enthusiasm has started the track team off to a good start.

Squashmen Lose To Bulldogs 9-0 In Season's Finale

The Tech squashmen closed their regular season last Friday, losing to a strong Yale team, 9-0. This loss dropped the season's record to 4 wins and 5 defeats. Tech won from Amherst, Wesleyan, Trinity, and Fordham and were beaten by their Ivy League rivals, Army, Princeton, Dartmouth, Harvard, and of course, Yale, in their last outing.

The Tech racketeers made a good showing in the Yale match despite the 9-0 score. Particularly impressive were Rudzinski and Melavas. Paul Rudzinski '53, lost to Yale's number one man, Dewey, by a score of 15-5, 9-15, 10-15, 18-15, and 18-15 in the final set. John Melavas '54, lost to Lachelier; 15-10, 15-11, 13-16, 5-15, and 15-11. In both cases the Techmen were close to winning, but lost out in the final games. Yale had a very good season, losing only to Princeton and Harvard, and were rated as one of the top teams in the East.

Thursday, March 5, Rudzinski, Goldin, Maxon, and Melavas venture to West Point to try their hand in the National Intercollegiate Championships. Goldin will be watched as he won the Class C State Championship. This meet will mark the end of intercollegiate competition for the squashmen this year.

The summary:
Rudzinski lost to Dewey, 5-15, 15-9, 15-10, 15-18, 18-15.
Goldin lost to Murphy, 15-7, 15-11, 15-11.
Maxon lost to Ewing, 15-10, 12-15, 16-15, 15-7.
Melavas lost to Lachelier, 10-15, 11-15, 16-13, 15-5, 15-11.
Flinn lost to Bush, 15-5, 15-4, 15-9.
Marriman lost to Workman, 15-8, 15-7, 11-15, 15-11.
Morales lost to Laughlin, 15-7, 18-16, 15-5.
Naer lost to Gardner, 15-11, 15-8, 15-12.
Warshawer lost to Ragen, 15-7, 15-9, 17-15.

John H. Rieman '54 Elected Commodore Of Nautical Ass'n

Recently the M.I.T. Nautical Association held its annual meeting in 2-390. The main part of the meeting was taken up with the election of officers. The new officers chosen were: Commodore—John H. Rieman, Vice Commodore—Horacio Garcia, Secretary—Alain deBerc, Treasurer—Dan Parkas. The Executive Committee members-at-large are: Undergraduate—Leon D. Michelove, Graduate—Randy Paulling, Freshman—Nicolas Newmann.

After the elections, the Sailing Master, Mr. Jack Wood, gave a short talk. He fixed the opening of the spring sailing season on April 6. He also pointed out that because we have a new fleet of dinghies, designed at Tech and made of fibreglas, there was no doubt that there would be more than enough boats for general sailing even on the most crowded regatta week ends.

Mainly through the efforts of Mr. Wood, Tech is now the proud owner of a fleet of 40 of the most modern small boats made. The fibreglas dinghies are approximately the same size and weight as the old wooden ones, but are stronger, easier to maintain and more maneuverable.

Struik Debates

(Continued from Page 1)

that they love the present investigation because it gives them an opportunity to confuse the issues." He held that "instead of finding them we are helping them to conceal themselves." According to Lowenstein, the Communists are "letting us search each other," and that we lose more from the investigations than we gain.

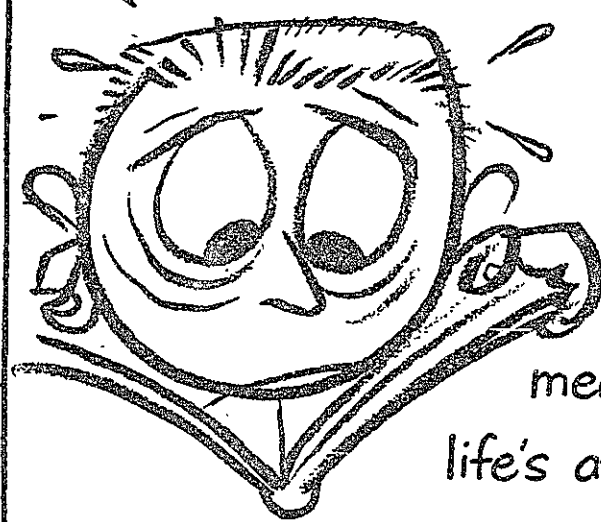

Dr. Arthur N. Holcombe of Harvard, moderator, pointed out that the forum had been planned before the present wave of investigations had taken place.

"Amazing variety and practical wisdom"

says DR. ANDREW W. BLACKWOOD
Temple University, Philadelphia, Penna.

"The Reader's Digest helps a busy man to understand life in these United States, in the United Nations, and even in Soviet lands. With amazing variety, and a world of practical wisdom, each monthly issue helps the reader to interpret life on earth today, with more than a few glimpses of tomorrow."

Each month, Reader's Digest editors comb through more publications than any one person could read in two years, and select whatever seems of outstanding interest.

Each article is carefully condensed to preserve both its content and flavor. The wide range of subjects stimulates new interests, encourages a further search for knowledge.

In a real way, Reader's Digest helps continue the education of millions of readers in America and all over the world.

★ ★ ★

In March Reader's Digest, you'll be interested in *The Earth Is Born*—latest scientific theories on how our earth began, how it will end; *We CAN Win the War in Korea*—William Bullitt's analysis of how we can end the bloody stalemate; *Fred Waller's Amazing Cinerama*—how a self-made scientist is bringing breathtaking realism to movies.

GRAD FORMAL

Hal Reeves' orchestra will provide the music for the Graduate School Spring Formal which will be held next Friday, March 13 at the Faculty Club from 9:00 p.m. to 1:00 a.m. Tickets are \$3.00 and may be obtained at the Graduate House desk. Dinner can be arranged for non-members.

Rifle Team

(Continued from Page 4)

The performance of Tech's composite team of three sophomores and two freshmen was only mediocre until the fourth and fifth man fired. When Arthur LaCapria '55 came up as the fourth man, he buckled down and cracked out a fine 285 to put the squad back into the running. Fellow sophomore John Stem was anchor man on the team, and with a seven minute time deficit to make up, he

was able to shoot a 280. Only the rapidity with which he had to fire his standing score prevented his total from being considerably higher.

Freshmen

Arnold Breeden, Robin Kozelka, and Joe Coccoli were the keynoters for the freshman team. Kozelka led off with a 277, and was followed by Coccoli with a 274. '56ers Frisbett and Webb followed, and though both fired well for freshmen, they showed the

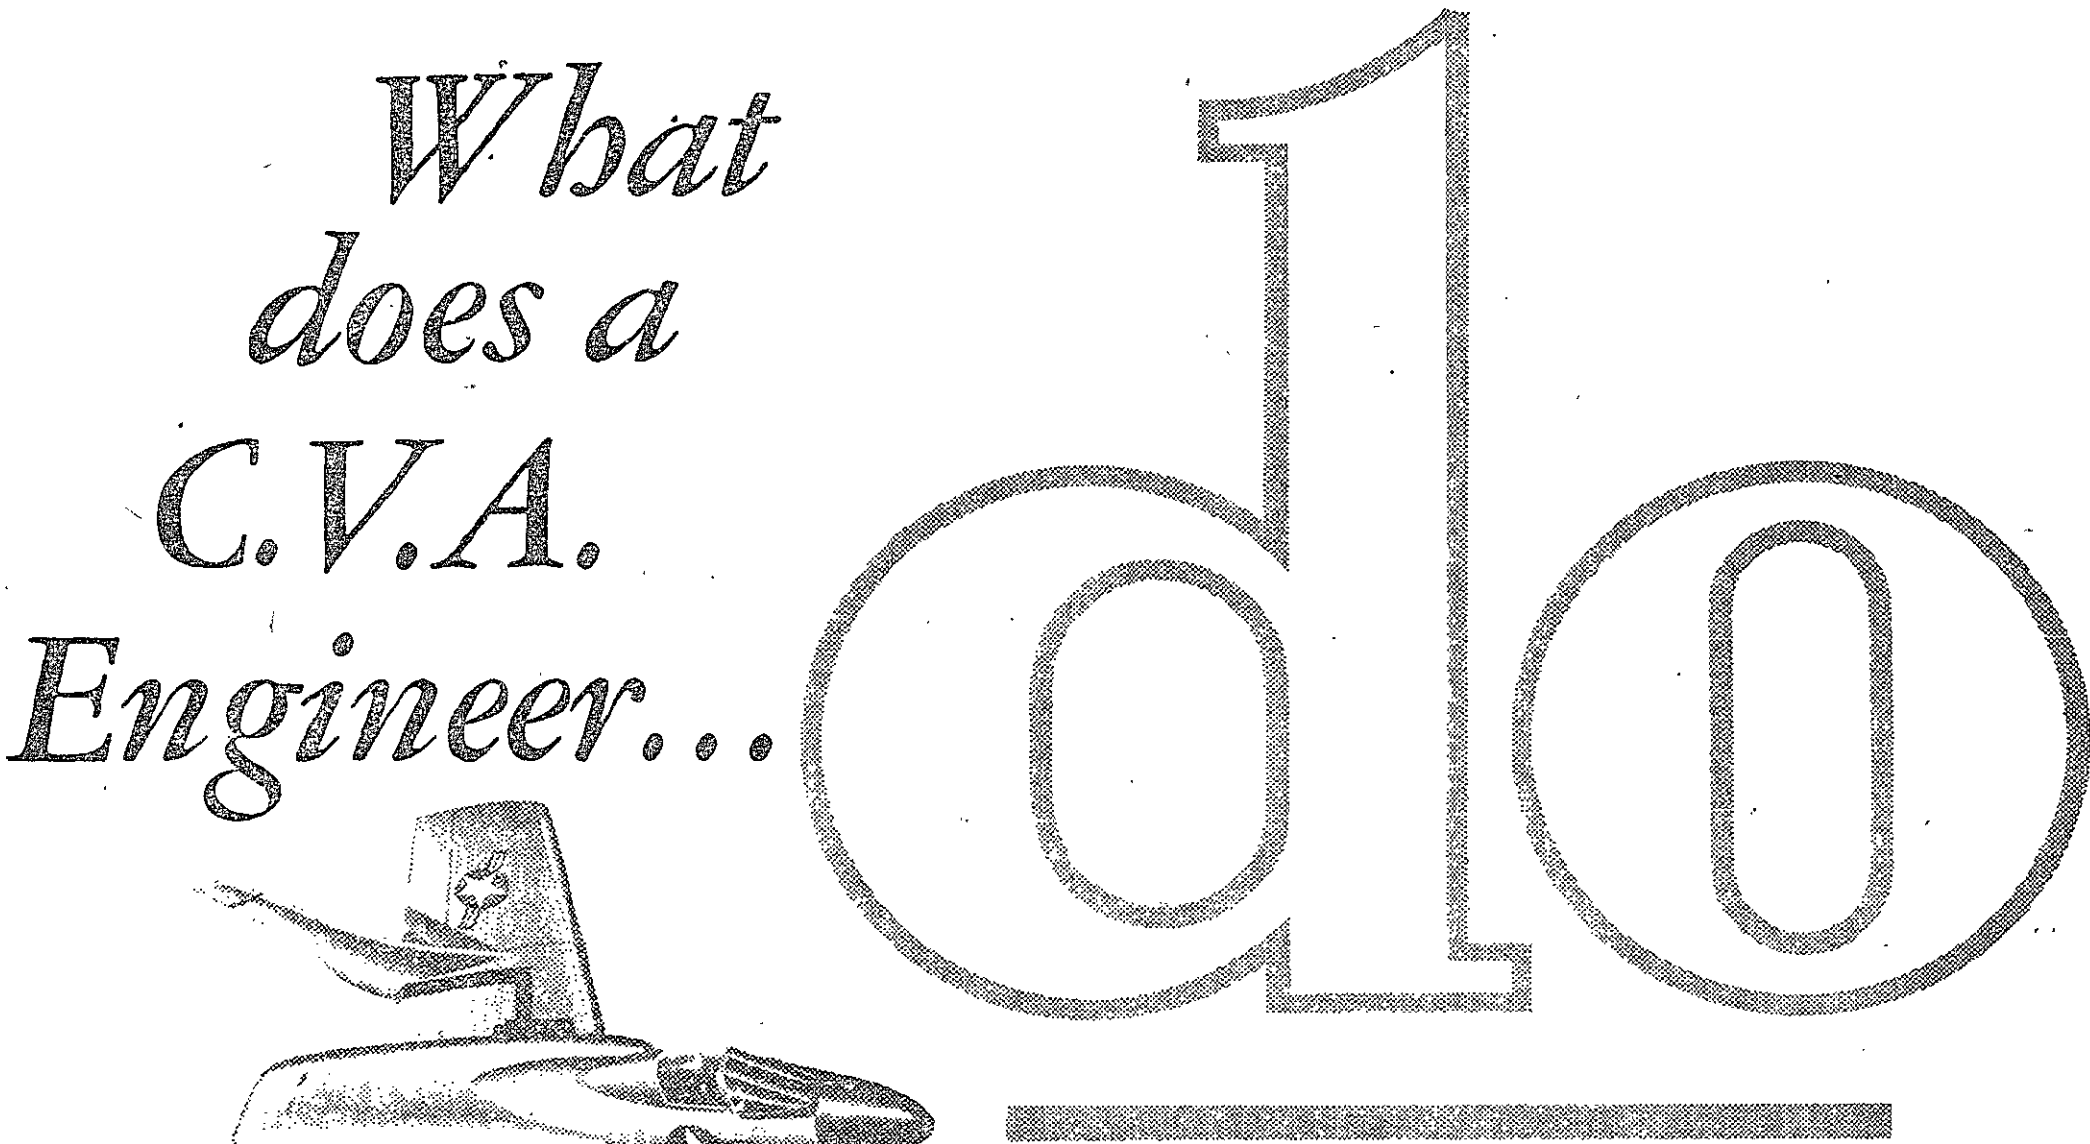

lack of competitive polish that only match experience will develop. Manager Breeden fired as fifth man for the freshmen, and with a three minute time deficit to make up, he proved himself to be a cool competitor and a top contender for a varsity slot next year by posting a 281 and giving the score a firm shove upward.

The five-man teams from both schools fired under conditions very

BIOLOGY

The Biology Department will hold open house for freshmen on Tuesday, March 17 at 5:00 p.m. All freshmen interested are requested to go to room 16-519 at that time.

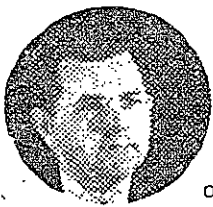

similar to those which will be met next week end on the Boston University range.

Using the basic principles of engineering and science he designs, develops and tests jet aircraft or guided missiles for specific military missions. His tools are his college training, the company's 35 years of experience in fighter aircraft design, the knowledge available from basic and applied research in many fields, the excellent facilities for research and testing and the cooperative efforts of his fellow engineers. Under youthful leadership he perfects his technical skill and develops his ability to direct others in the design and production of jet aircraft and guided missiles.

Engineering the jet aircraft and guided missiles of tomorrow requires the application of knowledge from many fields. Technical assignments are available in such types of work as the design and analysis of specialized electronic components, structural and hydraulic testing, structural and mechanical design, applied aerodynamics, power plant analysis and testing, stress and vibration analysis and flight testing.

If you are receiving a degree in Aeronautical Engineering, Mechanical Engineering, Civil Engineering, Electrical Engineering, Mathematics or Physics, we invite you to discuss your future in the aviation industry with us. Contact your Placement Director for an appointment for your interview with the Chance Vought Aircraft representative.

F. N. DICKERMAN, A. E., Massachusetts Institute of Technology, Chief Engineer, Chance Vought Aircraft, will interview graduates of the class of '53 in the Placement Office, MAR. 12-13. Mr. Dickerman is looking forward to the opportunity of discussing with you your future as a Chance Vought Engineer.

DIVISION OF UNITED AIRCRAFT CORPORATION

Station WMIT
Program Schedule

SUNDAY

4-6 MUSIC OF THE MASTERS
Khachaturian: Piano Concerto
Ballet Music from the opera
Rimsky-Korsakov: Short works
Khachaturian: Short works

6-8 MUSIC ROOM

Bethoven: Quartet I
Chopin: Ballade I
Bartok: Quartet I
Bach: Prelude I
Brahms: Quartet I

8-10 CONCERT HALL

Tchaikovsky: Symphony 5
Brecht: Violin Concerto
Mozart: Sinfonia Concertante
Bach: St. Matthew Passion

10-1 MUSIC IMMORTAL

Auber: Fra Diavolo Overture
Offenbach: Gaiety-Pastime
Auber: Bronze Horse Overture
Gilbert & Sullivan: H.M.S. Pinafore
Dvorak: Slavonic Dances (set 2)

MONDAY

8-9:30 CONCERT HALL

Lalo: Symphonie Espagnole
Moussorgsky: Pictures at an Exhibition
Mozart: Magic Flute Overture
Operatic Excerpts

10-15-12 MUSIC IMMORTAL

Smetana: Bartered Bride Overture
Bethoven: Symphony 9 "Choral"
(Toscanini recording)
Brahms: Violin Concerto in D

TUESDAY

8-12 MUSIC FOR MU-32

Bach: St. Matthew Passion
Bach: Concerto for Piano, Violin and Orchestra

WEDNESDAY

8-10 CONCERT HALL

Brahms: Symphony 2
Bethoven: Sonata 21
Mahler: Symphony 9

10-15-12 MUSIC IMMORTAL

Schumann: Piano Concerto
Schubert: Death and the Maiden
Chopin: Nocturnes

THURSDAY

8-10 CONCERT HALL

Haydn: Symphony 24 "Surprise"
Mozart: Horn Concerto
Bizet: L'Arlésienne Suite 2
Berlioz: Harold in Italy

10-15-12 MUSIC IMMORTAL

Handel: Concerti Grossi
Stravinsky: Le Sacre Du Printemps
Grieg: Piano Concerto in A
Gershwin: Rhapsody in Blue

FRIDAY

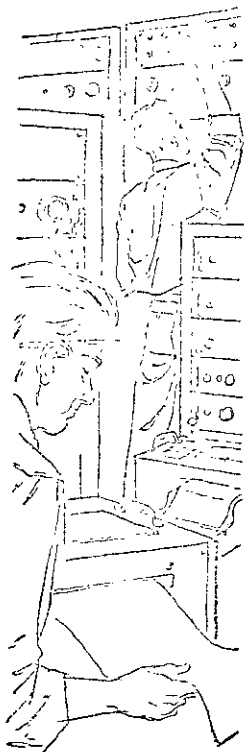

8-10 CONCERT HALL

Franck: Symphony in D
Bethoven: Piano Sonata 14 "Moonlight"
Vivaldi: The Four Seasons
Liszt: Hungarian Rhapsody 1

Engineers, Class of '53

Honeywell offers you
an exciting opportunity

On the date shown below, the Honeywell representative, Mr. H. T. Eckstrom, will be in town to give you an idea of some of the wonderful openings available in the Honeywell organization next June.

Positions will be available in Philadelphia, Minneapolis and Freeport, Ill.

They will involve design, development and production of aeronautical controls, heat controls, industrial instruments and Micro Switches. Research in electronics, hydraulics, chemistry and physics will figure heavily in the work.

If you'd like to use your imagination freely in any of these fields—and receive good pay while doing it—be sure to arrange an interview with Mr. Eckstrom through your College Placement Bureau.
